👤 SUMMARY

Full Stack Developer with hands-on experience in MERN stack development and 1 year of internship experience at Spider Innovations. Delivered 25+ client websites with focus on performance optimization, responsive design, and user experience. Proficient in modern web technologies including React, Node.js, and advanced CSS frameworks. Passionate about building scalable, innovative web solutions.

🔧 TECHNICAL SKILLS

Languages: JavaScript, C, C++, HTML5, CSS3, SQL
Frontend: React.js, Tailwind CSS, Bootstrap, GSAP, Responsive Design
Backend: Node.js, Express.js, MongoDB, RESTful APIs, Basic Backend Architecture
Developer Tools: Git, GitHub, VS Code, Chrome DevTools, Postman
Core Competencies: Data Structures & Algorithms, Web Performance Optimization, UI/UX Implementation, Agile Development

📁 EXPERIENCE

Frontend Developer Intern Jan 2024 – Present
Spider Innovations Remote

- Delivered 25+ production-ready client websites, implementing responsive designs and ensuring cross-browser compatibility
- Optimized website performance achieving 40% faster load times through code splitting, lazy loading, and asset optimization
- Collaborated with design and backend teams using Agile methodology to deliver projects 15% ahead of schedule
- Implemented modern UI animations using GSAP, enhancing user engagement and interaction rates by 30%
- Maintained clean, reusable code following industry best practices and conducted code reviews for junior developers

📁 PROJECTS

Real-Time Chat Application | *MongoDB, Express.js, React, Node.js, Socket.io, Render* 2024

- Developed full-stack real-time messaging application with WebSocket integration using Socket.io for instant communication
- Implemented user authentication with JWT, secure password hashing, and session management across the platform
- Built RESTful APIs for message handling, user management, and chat room functionality with MongoDB database integration
- Deployed scalable application on Render with optimized backend architecture supporting concurrent user connections

E-Commerce Shopping Platform | *MERN Stack, Stripe API, Redux, Render* 2024

- Architected comprehensive e-commerce solution with product catalog, shopping cart, and secure payment integration via Stripe
- Implemented Redux for centralized state management, handling complex user sessions, cart persistence, and order workflows
- Designed and developed RESTful API endpoints for product CRUD operations, user authentication, and order processing
- Integrated admin dashboard for inventory management, order tracking, and customer analytics with responsive UI design

Movie Ticket Booking System | *MongoDB, Express.js, React, Node.js, Render* 2024

- Built end-to-end ticket booking platform with dynamic seat selection, real-time availability updates, and booking confirmation

- Developed backend API with Express.js handling movie listings, showtimes, seat reservations, and transaction management
- Implemented role-based access control for users and administrators with secure authentication and authorization mechanisms
- Created responsive React frontend with interactive seat map visualization and seamless booking flow across devices

OBYS Agency Clone | *HTML, CSS, JavaScript, GSAP, Locomotive Scroll*

2024

- Engineered pixel-perfect recreation of award-winning agency website with advanced scroll animations and parallax effects
- Implemented smooth scrolling experience using Locomotive Scroll and custom GSAP timeline animations
- Achieved 95+ Lighthouse performance score through optimization techniques and efficient asset loading

EDUCATION

Gandhi Global Business Studies

Berhampur, Odisha

Bachelor of Computer Application (BCA)

2023 – 2026

- Relevant Coursework: Data Structures & Algorithms, Web Development, Database Management, Software Engineering

ADDITIONAL INTERESTS

Emerging Technologies: Exploring Web 3.0 concepts, AR/VR development with A-Frame and Three.js

Continuous Learning: Active learner of MERN stack, cloud technologies, and modern development practices
